

Just because it floats doesn't mean it belongs in our resacas.

Thousands of plastic bags are used in our community each day. But way too many of them wind up in our resacas & canals. They do not belong there.

Fortunately, Healthy Communities of Brownsville has four easy steps for you to follow to help prevent plastic bag pollution.

1. Reduce your use. Carry reusable bags everywhere you shop.
2. Reuse. Be creative. Find a way to reuse a plastic bag before recycling or throwing it away.
3. Recycle. We have a recycling program in our community. Drop-off locations can be found at the following website: www.healthybrownsville.org
4. Be a good neighbor. Pick up those wayward bags when you see them & take a proactive step.

You can make a difference. By working together, we can keep our resacas & waterways clean.
